

ISFP

The 7th World Congress of the International Society for Fertility Preservation (ISFP) November 10-12, 2022

Thursday, November 10, 2022
Workshop A- Ovarian tissue cryopreservation (slow freezing)
Workshop B- Oocyte vitrification
Local session -ASFP & FPSI
Local session- FertiPROTEKT

Friday, November 11, 2022	
09:00-09:05	Welcome Marie-Madeleine Dolmans , President of ISFP
09:05-09:15	Wishes: 15 years of ISFP Jacques Donnez , Belgium Sam Kim , USA
09:15-09:45	Session 1: Opening lecture Chairs: Jacques Donnez , Belgium, Sam Kim , USA, Hamish Wallace , UK
09:15-09:45	Fertility preservation: the recent changes and expectations Marie- Madeleine Dolmans , Belgium
09:45-10:45	Session 2: Cancer patients: what should be the criteria for fertility preservation? Chairs: TBA
09:45-10:15	The EU experience Richard Anderson , UK
10:15-10:45	The USA experience Glenn Schattman , USA
10:45-11:10	<i>Coffee Break</i>
11:10-12:50	Session 3: Fertility preservation in benign gynecological diseases Chairs: Felice Petraglia , Italy Bruno Salle , France
11:10-11:30	Adenomyosis, endometriosis, and fibroids-linked infertility: the mechanisms Felice Petraglia , Italy
11:30-11:50	How to protect/restore fertility in case of uterine fibroids and adenomyosis? Jacques Donnez , Belgium
11:50-12:10	How to preserve fertility in case of endometriosis? Ana Cobo , Spain
12:10--12:30	How to preserve fertility in Turner syndrome Ron Peek , Holland
12:30-12:50	Uterine transplantation: state of the art Tommaso Falcone , USA/UK
12:50-13:50	<i>Lunch Break</i>

ISFP

The 7th World Congress of the International Society for Fertility Preservation (ISFP) November 10-12, 2022

13:50-15:30	Session 4: Andrology Chairs: Herman Tournaye, Belgium Nao Suzuki, Japan
13:50-14:10	Fertility preservation in boys: recent developments, challenges, and new insights Jan-Bernd Stukenborg, Sweden
14:10-14:30	Preservation of fertility in transgender people Pasquale Patrizio, USA
14:30-14:50	Fertility preservation in childhood cancer and prepubertal testicular tissue Rod Mitchell, Belgium
14:50-15:10	Spermatogonial stem cells: from research to clinical relevance Joachim Wistuba, Germany
15:10-15:30	Man-made human sperm: hope or hype Herman Tournaye, Belgium
15:30-15:50	<i>Coffee Break</i>
15:50-17:50	Session 5: IVM AND POOR RESPONDERS Chairs: Zev Rosenwaks, USA Francesca E. Duncan, USA
15:50-16:50	<u>Do we have arguments in favor of IVM in terms of live birth rate?</u> IVM alone Michel De Vos, Belgium IVM at the time of OTC Claus Yding Andersen, Denmark A critical review of IVM: where are we really? Kenny Rodriguez Wallberg, Sweden
16:50-17:50	<u>Poor responders:</u> Is IVA the solution? Review of the literature and questions Stine Gry Kristensen, Denmark Rejuvenating the ovary by stem cells transplantation Antonio Pellicer, Italy Rejuvenating the oocyte: is mitochondrial or nucleus transfer the solution Chii-Ruey Tzeng, Taiwan

ISFP

The 7th World Congress of the International Society for Fertility Preservation (ISFP) November 10-12, 2022

Saturday, November 12, 2022	
08:15-09:30	Session 6: Chemotherapy and ovaries Chairs: Claus Yding Andersen, Denmark Michael Von Wolff, Germany Nalini Kaul-Mahajan, India
08:15-08:40	Mechanisms of ovarian damage from chemotherapy: apoptosis and/or follicle activation? Dror Meiorow, Israel
08:40-09:10	Is OTC after chemotherapy efficacious or contra-indicated? The French experience- Catherine Poirot, France The Israeli experience- Moran Shapira, Israel
09:10-09:30	How to counteract gonadotoxicity? Isabelle Demeestere, Belgium
09:30-09:35	<i>Technical Break</i>
09:35-10:35	Industry-supported symposium
10:35-10:55	<i>Coffee Break</i>
10:55-11:35	Session 7: Selected abstracts Chairs: Isabelle Demeestere, Belgium Dror Meiorow, Israel
11:35-12:55	Session 8: Paving the way to the future Chairs: Michelle Nisolle, Belgium Antonio Pellicer, Spain
11:35-11:55	The gamete microenvironment in iatrogenic and physiologic ovarian aging Francesca Duncan, USA
11:55-12:15	Single cell transcriptomics: analysis of human antral follicles TBD
12:15-12:35	From primordial follicle to mature oocyte: are we ready? Evelyn Telfer, UK
12:35-12:55	How to improve revascularization of the ovarian transplants? Luciana Cacciottola, Italy
12:55-14:00	<i>Lunch Break</i>
14:00-15:50	Session 9: Fertility preservation in breast and pelvic cancers Chairs: Jean Squifflet, Belgium Tommaso Falcone, USA/UK
14:00-14:30	Conservative surgery in ovarian cancer and in BOT Catherine Uzan, France
14:30-15:00	Fertility-sparing surgery in cervical and endometrial cancer Philippe Morice, France-TBC
15:00-15:25	The question of fertility preservation in breast cancer women: before, between and after treatment the US experience Mitchel Rosen, USA
15:25-15:50	Fertility preservation in breast cancer women - The European Experience Michael Von Wolff, Germany
15:50-16:20	Closing remarks Marie-Madeleine Dolmans, Belgium and Zev Rosenwaks, USA
	Award and closing ceremony
