

Michel De Vos, MD, PhD, has worked as a gynaecologist since 2006 and currently is a senior medical director at the Centre for Reproductive Medicine at Universitair Ziekenhuis Brussel, Belgium and an associate professor in reproductive medicine at Vrije Universiteit Brussel.

He studied medicine in Ghent, Belgium, and holds a PhD in medicine from the University of Leeds, UK. In 2011, he was recognised as a subspecialist in reproductive medicine and surgery by ESHRE and the European Board and College of Obstetrics and Gynaecology (EBCOG).

Michel has a keen interest in reproductive endocrinology and fertility preservation.

He is a principle investigator of the FOTO (Freezing Ovarian Tissue and Oocytes) consortium, encompassing oncofertility research projects at three universities in Brussels: Vrije Universiteit Brussel (VUB), Université Libre de Bruxelles (ULB) and Université Catholique de Louvain (UCL).
